## Welcome to Banff Sport Medicine!

The following forms are required to assess your injury with the Surgeon at your upcoming appointment.

**Please fully complete all forms PRIOR to your appointment to avoid delays.** (If you are unable to print your forms or have questions, please arrive 30 minutes prior to your appointment to allow time to complete your forms before seeing the surgeon.)

### Registration Forms (not required if completed within the last year)

- Patient Registration: demographic information
- Informed Consent: allows patient information to be accessed for research purposes
- Initial Consult Patient History: information related to your injury

### Surgery Forms

These forms are required by Banff Mineral Springs Hospital if you are consented for surgery

- Covenant Health, Banff Mineral Springs Hospital: Pre-Operative Patient Questionnaire
- Covenant Health: Consent to Disclose Health Information

**Note:** Before surgery is booked approval must be obtained from the Anaesthesia Department at Banff Mineral Springs Hospital (MSH). MSH will review your medical history to determine if you are a low risk candidate. MSH is a rural hospital and does not have tertiary medical services (ICU, blood bank, etc.) and for the safety of our patients we can only operate on patients who are deemed low risk. Please ensure you provide complete details on these forms as missing information may delay the process. Please contact your family physician if you are unsure of any details, such as dates, facilities or names of specialists.

**Thank you from all of us at Banff Sport Medicine!**

Date of Injury:		Location:	
Employer at time of injury:			
Nature of injury:			
Social Insurance Number:		WCB Claim Number:	

**Banff Sport Medicine Uninsured Services Policy:** Fees for uninsured services (not covered under provincial health care plans) will be at the discretion of the physician. This includes but is not limited to forms required by third parties and government agencies.

Registration Form - June 2022

## Banff Sport Medicine

### INFORMED CONSENT TO ALLOW PATIENT MEDICAL INFORMATION TO BE ACCESSED IN DATABASE FOR RESEARCH PURPOSES

Banff Sport Medicine is actively involved in research to achieve excellence in the clinical care and surgical reconstruction of sport trauma, in order to provide the best-possible outcomes for our patients. To do this research, the physicians at Banff Sport Medicine compile patient files in a computer database. Information placed onto this system includes details such as your injury type, your rehabilitation program, your sporting activities, age, gender and name. Once compiled patient names are removed and the information is analyzed to assess things such as how often a specific injury occurred, the sports involved and how injuries were rehabilitated.

Your name is needed to identify your file and to identify cases with more than one injury. Should you decide to allow us to use your medical file in this way, your medical history will be kept in strictest confidence. Your name will not appear in any research report, nor will it be made available to persons other than those involved in your health care, their staff and their research associates. This information may also be used for the purposes of contacting you in the future regarding participation in research. There are no perceived risks or benefits associated with your participation. Should you refuse to allow us to use your medical file or if you withdraw your consent, your care will not be compromised in any way.

Your signature on this form indicates that you authorize the custodian of your health records (your physician at the Banff Sport Medicine) to disclose your personal health information for research purposes. You enter this program willingly and may withdraw your consent at anytime without prejudice to future health care. You have understood to your satisfaction why you have been asked to disclose this information and are aware of the risks or benefits of consenting or refusing to consent.

#### CONSENT

I have read the above information and understand that the purpose of allowing my file data to be used is for research. I understand that I may withdraw my consent at any time without prejudice to further health care. I allow my name and personal health information to be placed on the computer database for the purpose of research or for contacting me for a research study.

☐

**I agree to have my patient information on the Banff Sport Medicine Database used for research purposes or to be contacted by the Banff Sport Medicine Foundation.**

☐

**I do not agree to have my patient information on the Banff Sport Medicine Database to be used for research purposes or to be contacted by the Banff Sport Medicine Foundation.**
